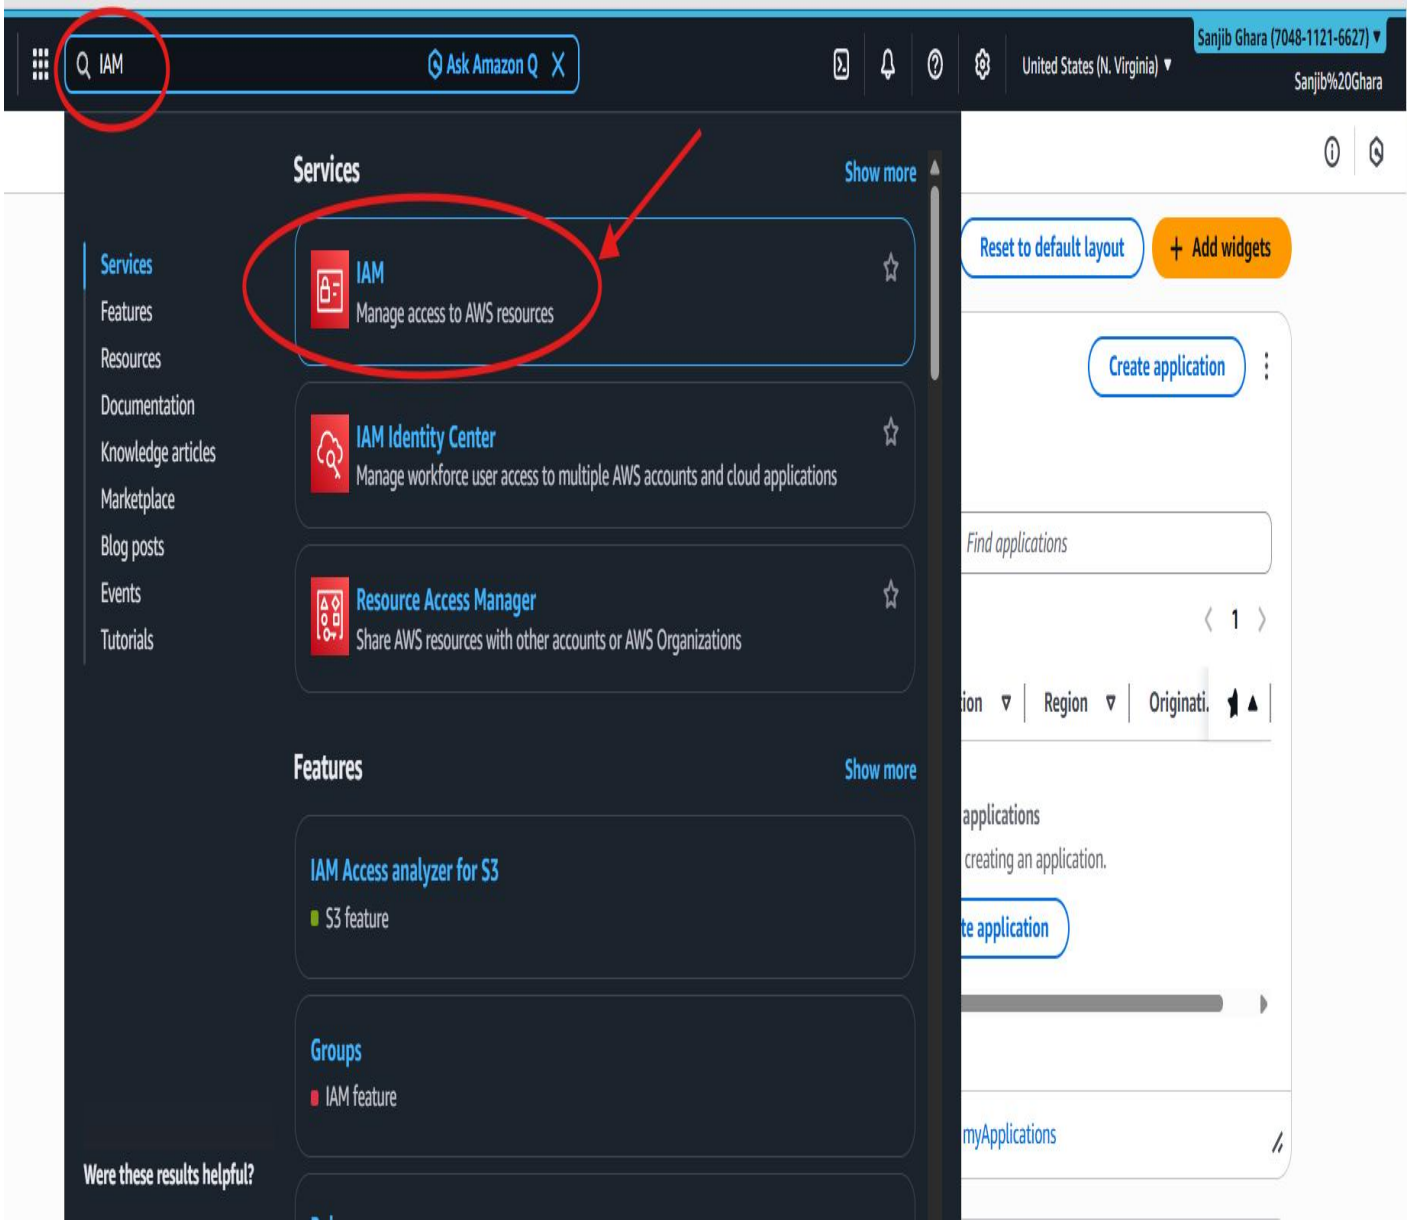
Assignment no :- 03
CREATE IAM USER AND GIVE FULL ACCESS TO S3

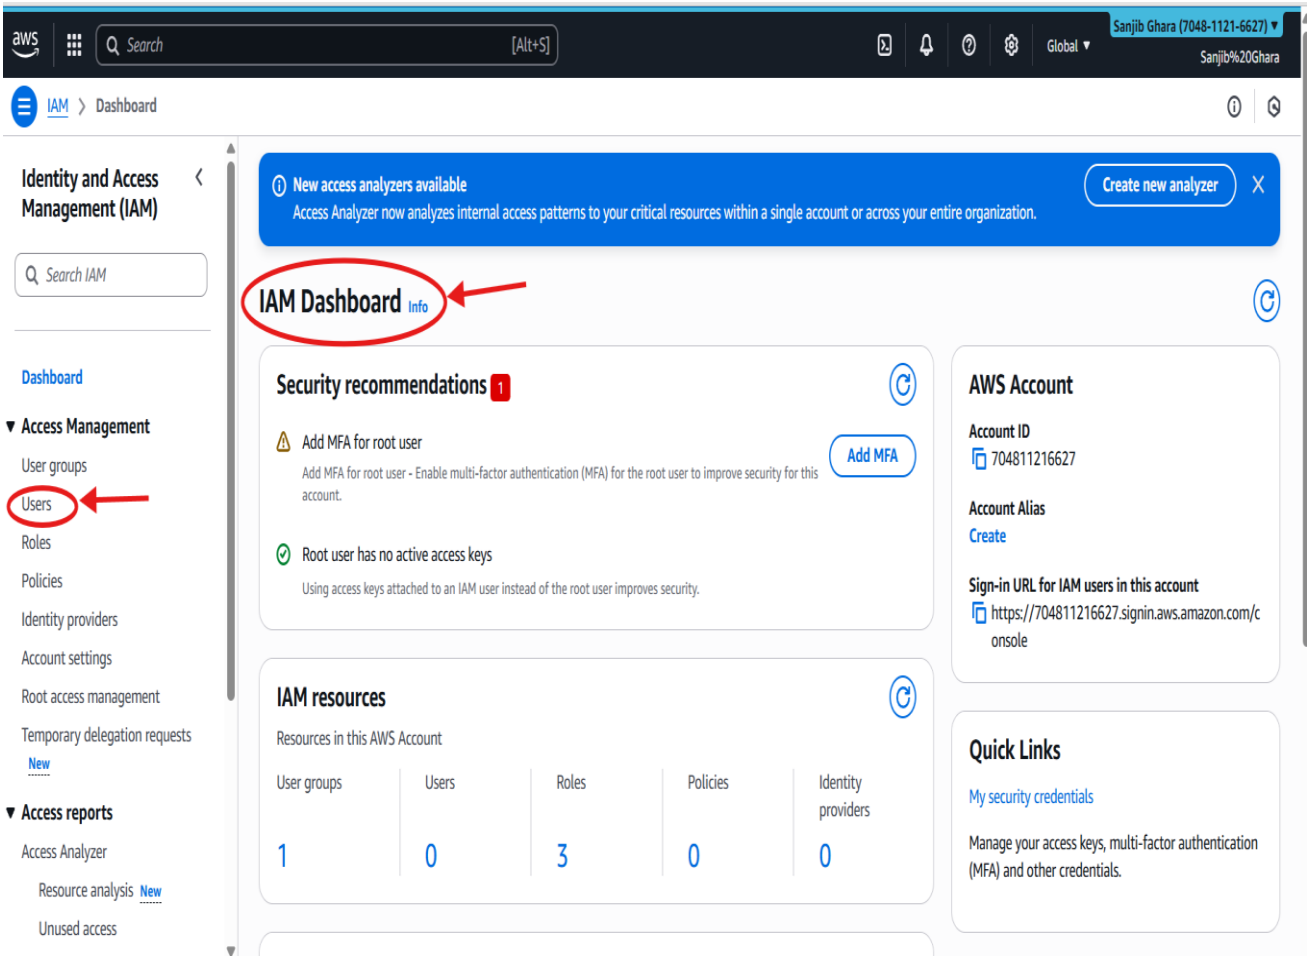
Solution :-

Steps:-

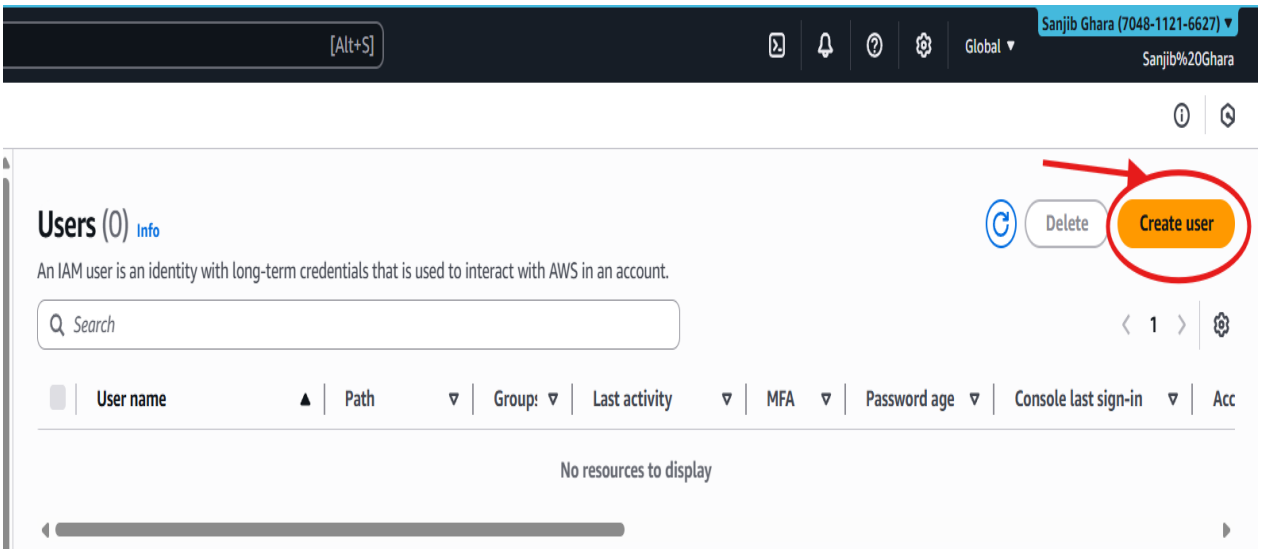
1. At first login to the AWS console.
2. Then search IAM in the search bar.
3. After that click on the IAM service.



4. Now we redirect to the IAM dashboard.
5. In the IAM dashboard click on the users.

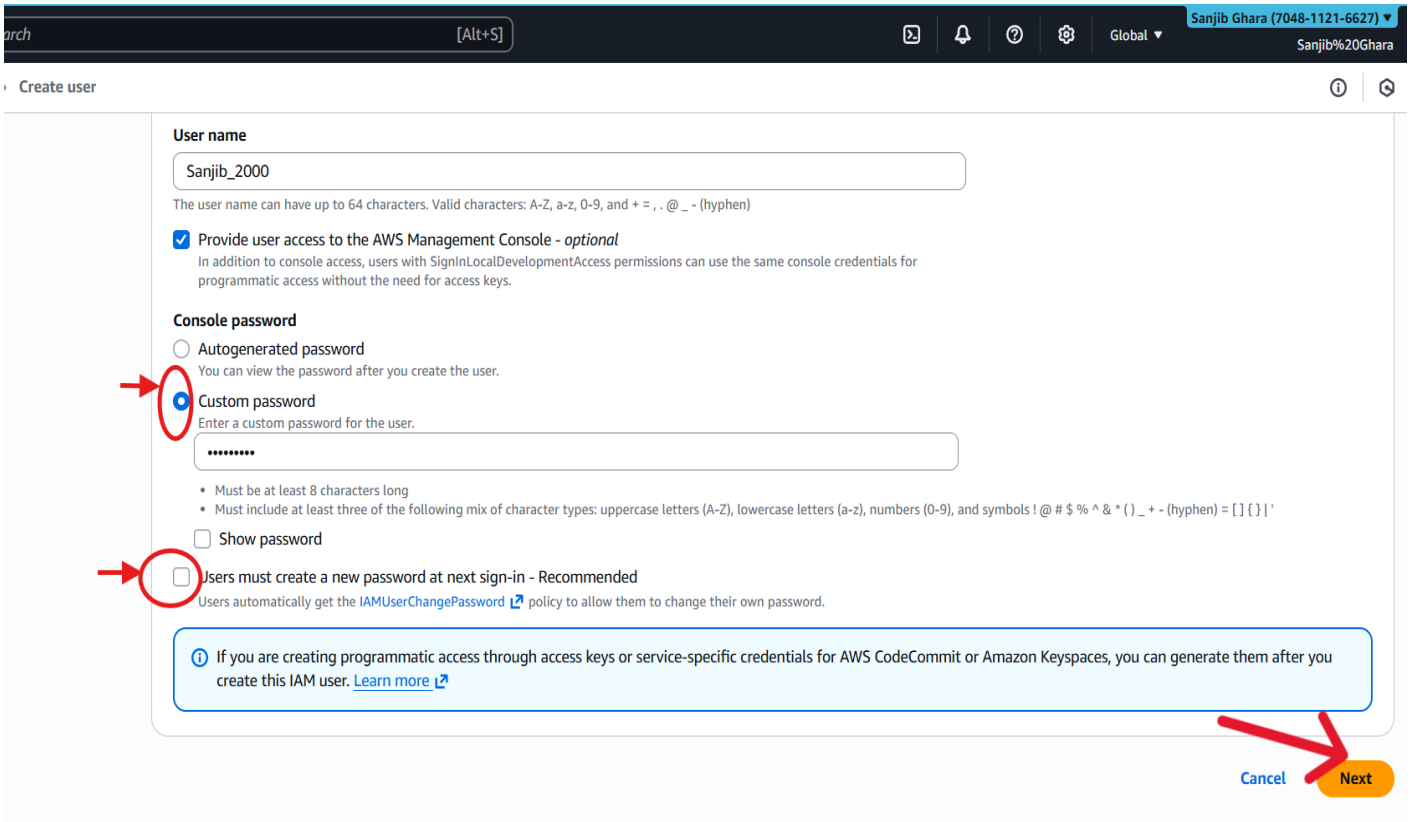


6. After click on USERS we redirect to the user interface. Here we click on "**Create user**".

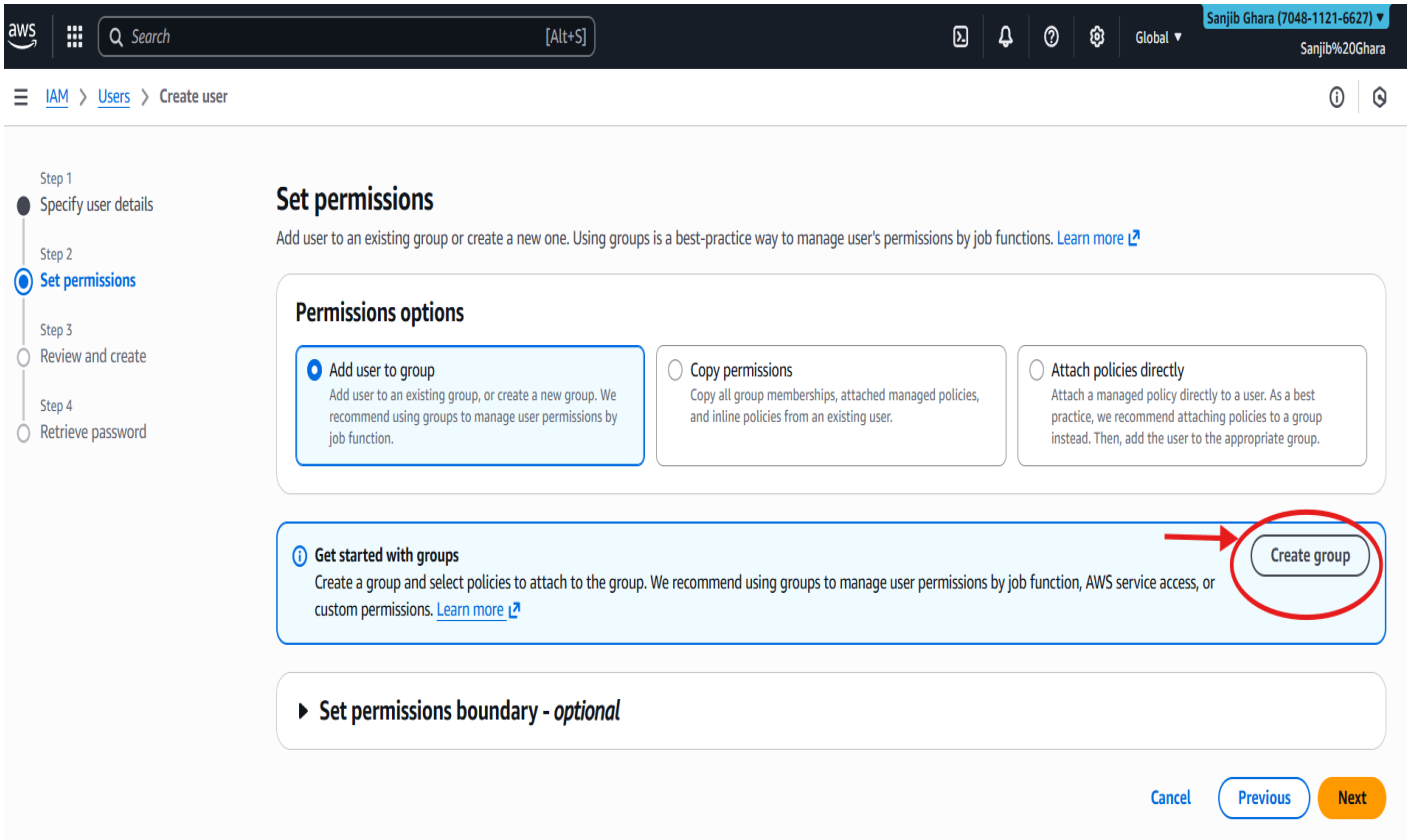


7. Then we need to create new user and after that give a tick on the "**Provide user access**". Then set a custom password for future login. Next, if user wants to static his/her password then un check the "**next-sign in box**" , otherwise in every sign user need to create a password.

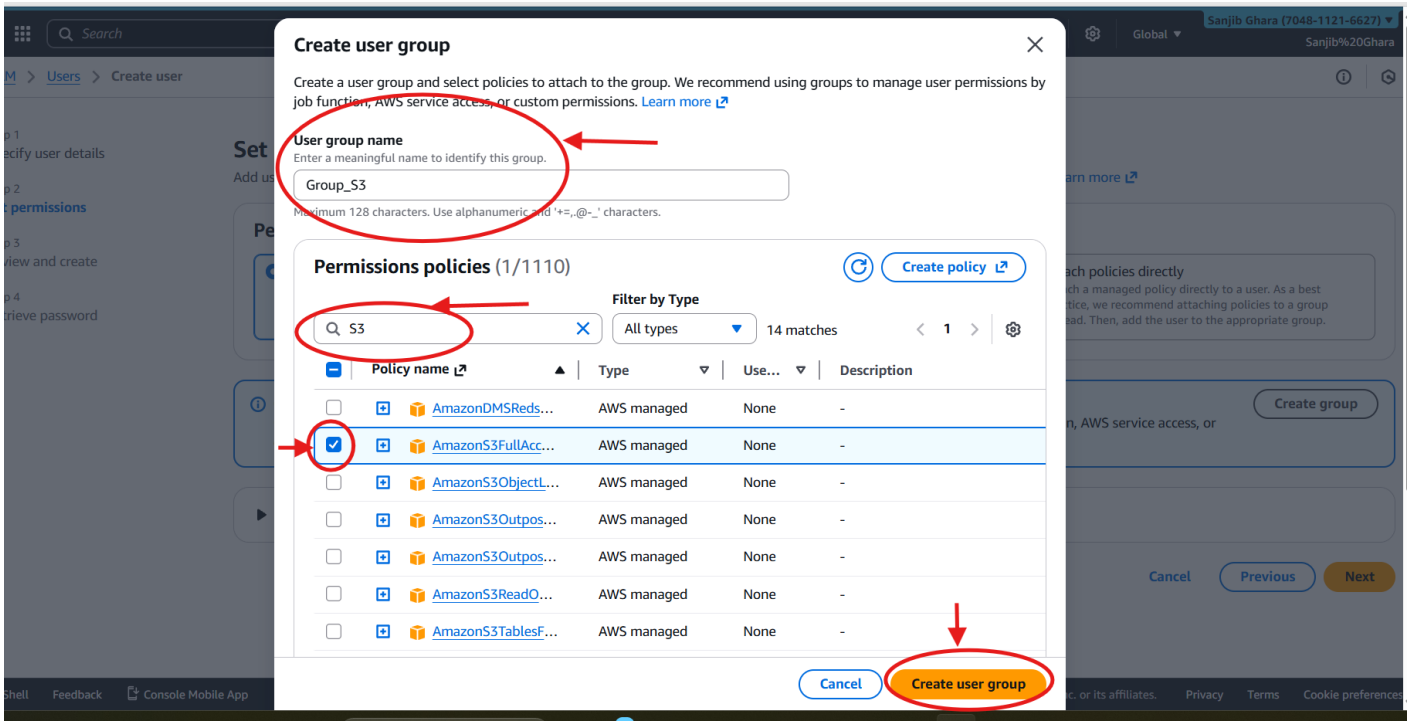
8. After that press next.



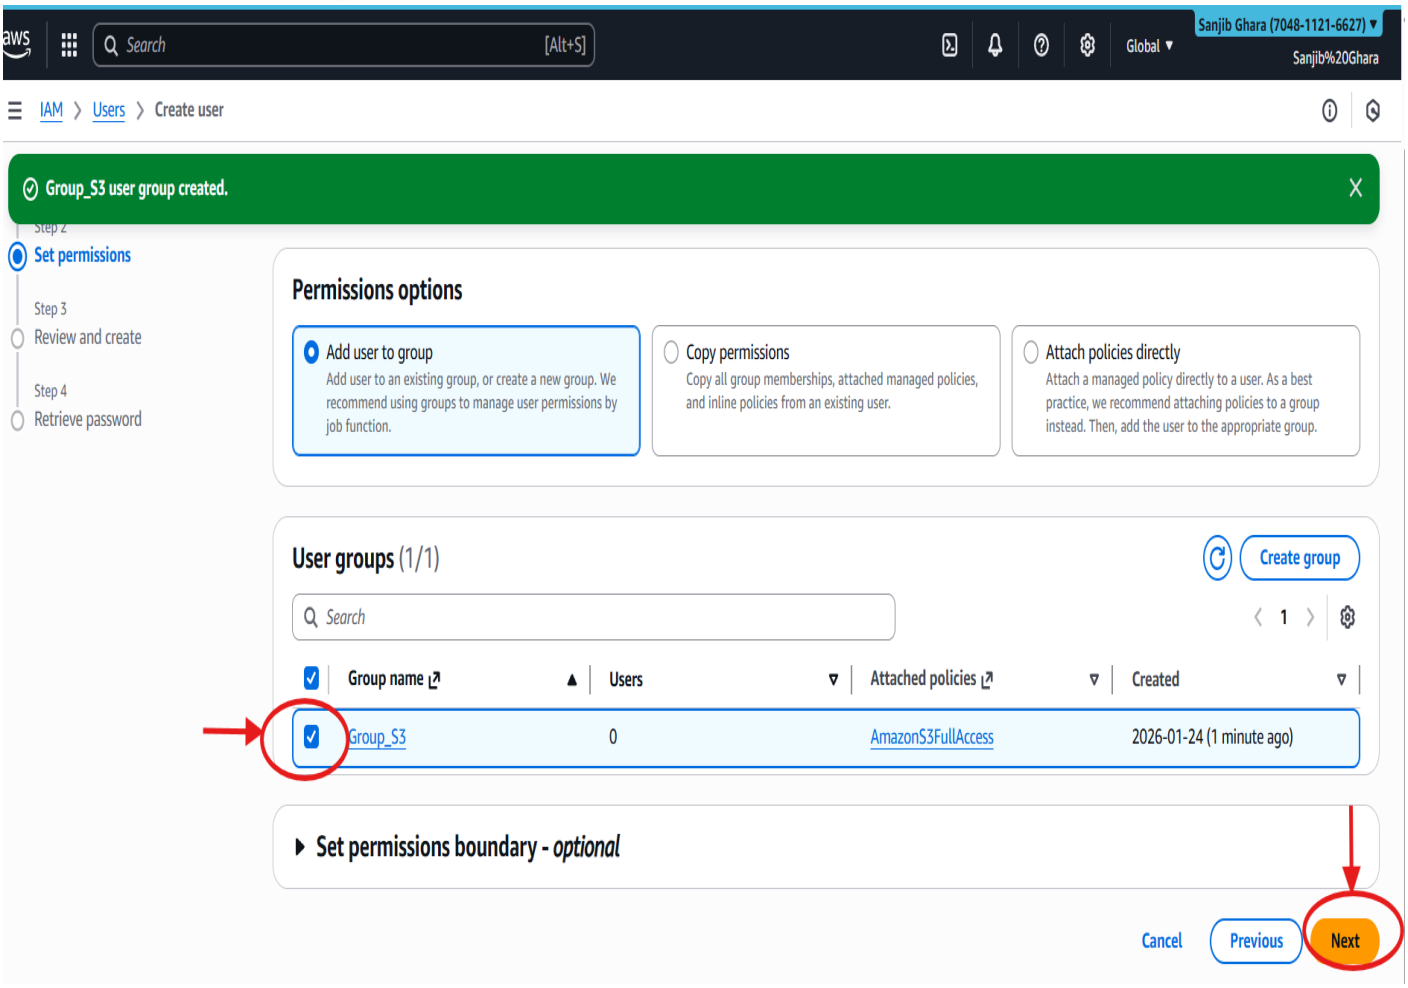
8. Now we are in the "**set Permission**" interface. Here we need to create a permission groups, for that at first Click on the "**create group**".



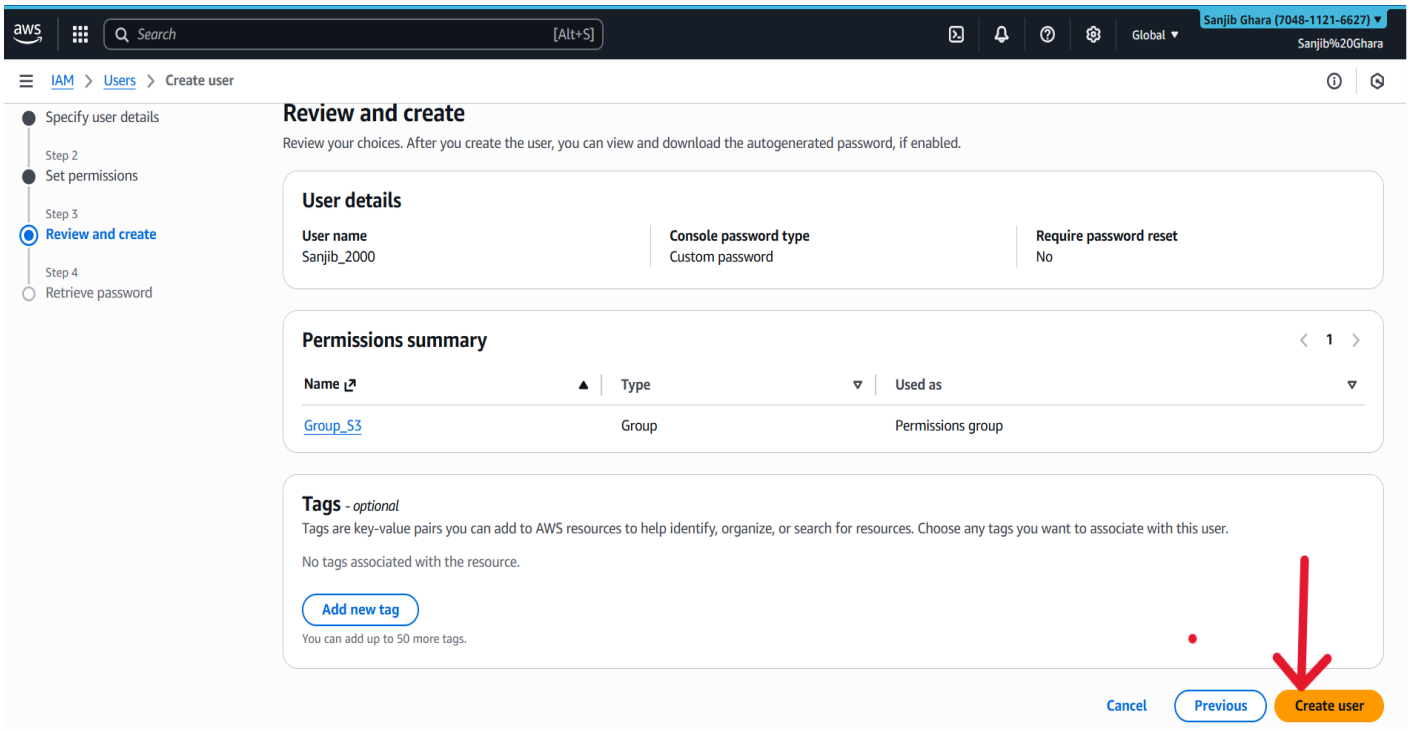
9. After opening of "Create User groups", there we need set a "**user group name**". Then search S3 and give Tick on the "**AmazonS3fullaccess**" , then click on "**create user group**"



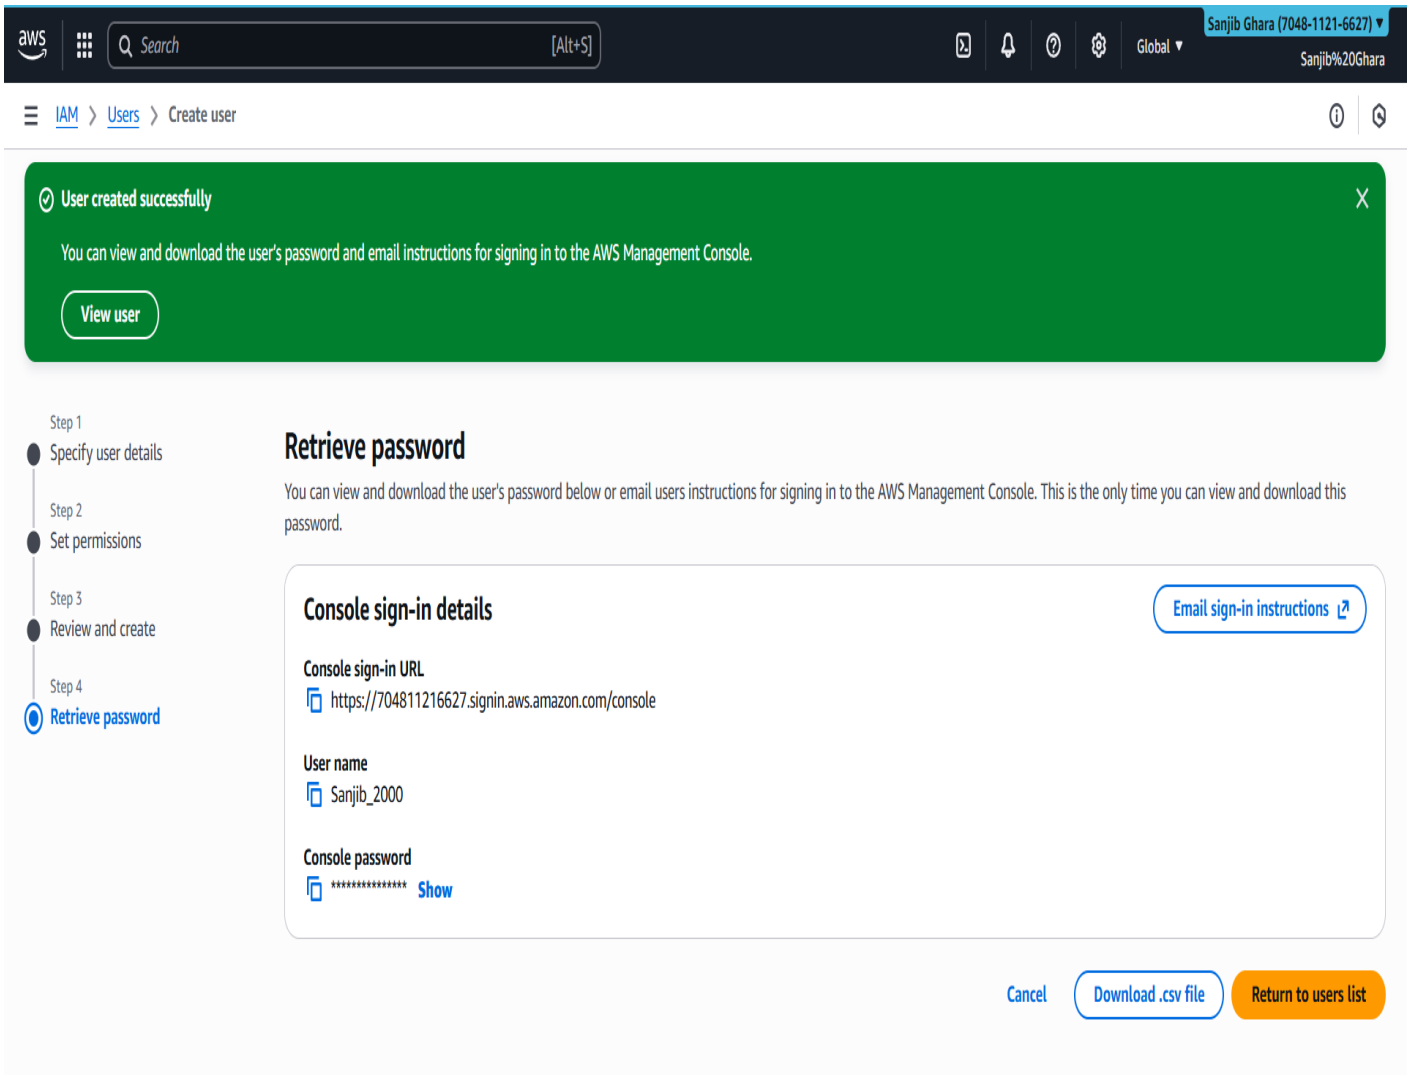
10. Now the S3 name as "**Group_S3**" is created. After that we need to tick on of "**Group_S3".** Then Press "**next**".



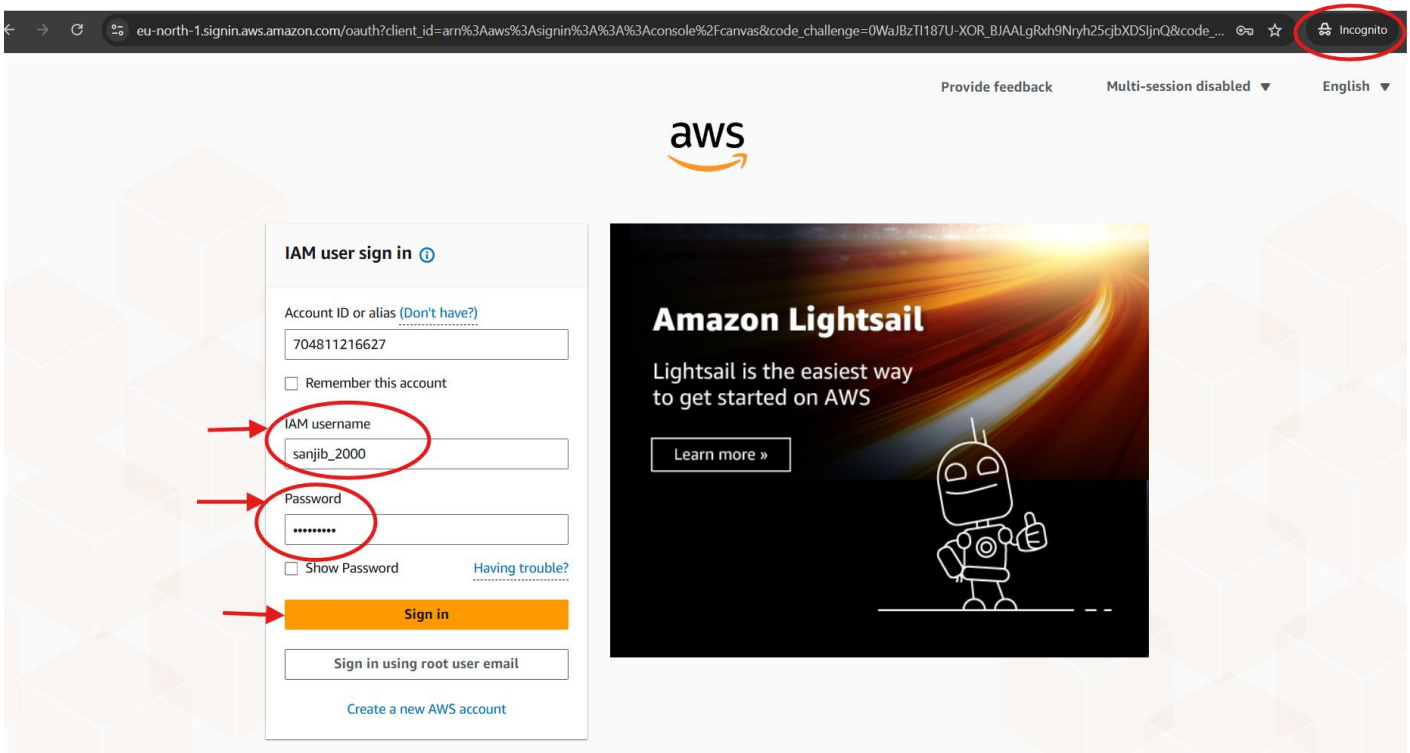
11. Now we are in the Review page. Here we need to click on **"Create user"**.



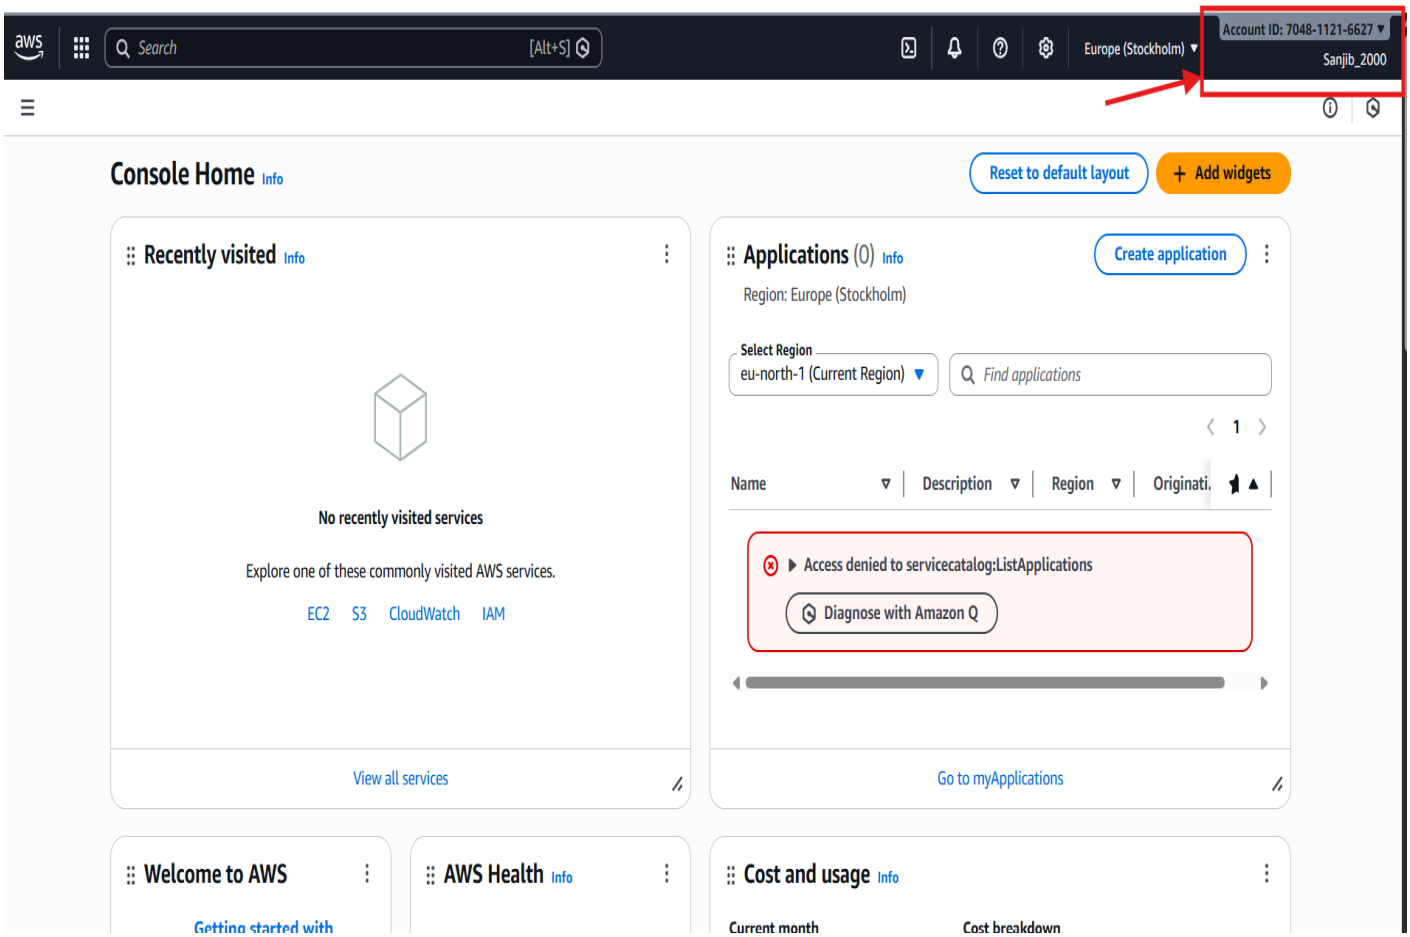
12. So , now our user is created.



13. sign-in as IAM user. Then copy the "**console sign in url**" and sign in as IAM user in incognito mode using the "**User name and password**" for checking



14.Opennig of IAM user.



14. checking S3 permission in user by searching "**S3**" in search bar.

Storage
Amazon S3
Store and retrieve any amount of data from anywhere
Amazon S3 is an object storage service that offers industry-leading scalability, data availability, security, and performance.
Create a bucket
Every object in S3 is stored in a bucket. To upload files and folders to S3, you'll need to create a bucket where the objects will be stored.
Create bucket
Pricing
With S3, there are no minimum fees. You only pay for what you use. Prices are based on the location of your S3 bucket.
Estimate your monthly bill using the AWS Simple Monthly Calculator
